Participants say:

A gift of empowerment. The PJD helped me to look at the life-changing events of my life and how my choices in response have been led by a deep and profound grace that I can trust now and into the future. I am energized!

~Rev. Susan Davis, Endicott, NY

The concepts here will stick with me for my life journey. They will keep me honest and humble and drive me to act on behalf of all that is good. I feel this PJD is a crucial part of my journey.

~Ashleigh Rader, student,
Iowa State University

Regardless of creed, these are profound understandings that we need to hold in our awareness on this journey of care.

~Dr. Robert True, Jersey City

These days, hopeful and deep conversations about the profound journey are practical, possible and sorely needed. I can imagine this particular seminar throughout our network.

~Lisel Burns, Brooklyn, NY
